0.4 mm Contact Pitch 1.5 mm above the board Board-to-Board /Board-to-FPC Connectors

DF40 Series

■Features

Higher density of the board-mounted components
 Extremely small board mounting pattern and low abovethe-board profile makes the connectors ideally suited for
small device applications.

2. High contact reliability

Despite connectors small size and low profile the contacts provide strong contact forces and long contact wipe (0.45 mm), guaranteeing reliable electrical and mechanical performance.

3. Large self-alignment distance

The connectors will self-align within 0.33 mm.

4. Confirmation of the fully mated condition Positive "click" sensation confirms correct insertion and connection of all contacts.

5. Built-in shock absorbing feature

The protrusions and indents in the insulator bodies protect the connectors from failures when exposed to sudden impact.

6. Solder wicking prevention

Nickel-plated barriers provide protection against solder wicking into the contact areas.

7. Contact area protection

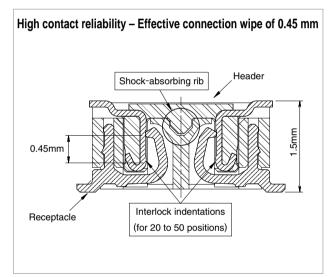

External walls protect the exposed contact areas from intrusion of flux or foreign particles.

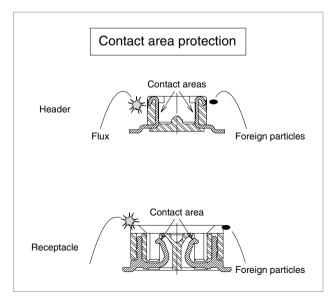

8. RoHS compliant

All components and materials comply with the requirements of the EU Directive 2002/95/EC.

Applications

Cellular phones, Digital Video Cameras, Digital Still Cameras, portable devices and other small applications requiring reliable board-to-board or FPC-to-board connections.
